

Mission Statement

The mission of the LCS Satellite Program is to train young people and to develop them to their fullest potential in all areas of life. We are committed to being an extension of the home; working closely with parents to train the whole child in the highest principles of Christian leadership; and teaching of self-discipline, respect for those in authority, obedience to the law, and love for flag and country.

Our Purpose

The purpose of the LCS Satellite Program is to provide conditions and curriculum whereby boys and girls can receive the Truth. Not only is it our objective to teach the Truth but also to teach our students how to apply the Truth wisely to their own lives. We are committed to provide parents with curriculum and materials for the best possible education for their children. We, as Christian educators, desire to train each student to accept individual responsibility to God for his actions and challenge him to glorify God in every facet of his life.

Our Goal

Realizing that it is the Christian home to which God has given authority and power to train up successful young people, it is the goal of LCS Satellite Program to assist other schools in the training process.

LIGHTHOUSE CHRISTIAN SCHOOL

HOME OF THE CHRISTIAN CONQUERORS

The goal at Lighthouse Christian School is to train the entire family to serve the Lord. It is not just a school; it is a ministry. Lighthouse Christian has continued to maintain the ACCELERATED CHRISTIAN EDUCATION SCHOOL OF TOMORROW Model status throughout its existence. This is the highest standard of excellence a school using the Accelerated Christian Education curriculum can attain. Lighthouse Christian School has an educational program from K5 through the 12th grade. Its program facilitates learning from the K5 to twelfth grade through self-instructional materials requiring a minimum of adult supervision while enabling students with varied abilities to advance academically. A student can develop skills while working at his own academic level within the limits of his own ability and according to his own background. Through controls and motivation, he is able to advance to his highest potential.

Student achievement is often hampered by grading and grouping students according to their chronological age. Through national achievement tests and diagnostic testing the student is evaluated relative to vocabulary and cognitive skills. This makes it possible to prescribe his curriculum at his actual level of performance. A student's level is determined by ability, not age.

It is the desire of Lighthouse Baptist Church to help families raise their children in an environment with *Biblical values and a quality Christian Education that is second to none.*
